

## **Charging Station User Guide**

### **Preparation**

Before you participate, you will need a Huobi Eco Chain and Binance Smart Chain-compatible wallet such as Metamask.

To connect Metamask to Huobi Eco Chain and Binance Smart Chain, please follow the steps below

### **PC Browser wallets**

1. Open Metamask and click on the network selector at the top. Click 'Ethereum Mainnet', Scroll down and click Custom RPC

2. Type in the details below. Once all filled and click Save.

With the successful registration of Customer RPC, Binance Smart Chain and Huobi Ecochain will pop up in your network options After setting all networks, add RCG token on your account page. Your RCG token should be listed under these networks.

## A) Setting up Huobi Eco Chain

Network Name: **Heco-Mainnet** 

New RPC URL: https://http-mainnet-node.huobichain.com Chain ID: **128** Currency Symbol (optional): **HT** Block Explorer URL (optional): https://scan.hecochain.com

Network Name: Binance Smart Chain

New RPC URL: https://bsc-dataseed.binance.org Chain ID: 56 Currency Symbol (optional): BNB Block Explorer URL (optional): http://bscscan.com

Wallet Connect

### 1. Open Metamask and click Asset. 2. Scroll down to the bottom and click Add Token

C) Adding up RCG Token
